

BLÜCHER® DRAIN DOMESTIC

HygienicPro gratings for commercial applications

- Cast stainless steel grade AISI CF-8
- For Drain Domestic 150x150 and Ø180 mm and as mounting set 200x200
- With or without screw lock

KEEPING UP THE FLOW

HygienicPro gratings for commercial applications

- Cast stainless steel AISI CF-8
- Load class L (3000 kg)
- Easy to clean

The HygienicPro grating which has proven its worth in channels and square industrial drains installed in industrial applications with strict hygiene requirements, is now also available in smaller sizes for commercial applications.

The HygienicPro grating is easy to clean and particularly suitable for use where hygiene is essential, e.g. in commercial kitchens.

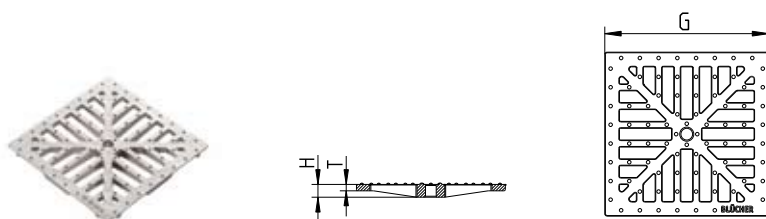

The HygienicPro grating for Drain Domestic is also the ideal choice in for instance car parks, public toilets and supermarkets.

The new range of HygienicPro gratings for BLÜCHER® Drain Domestic all have load class L (3000 kg) and are available with or without screw lock for drain sizes:

- Square 150x150 and mounting set 150x150
- Mounting set 200x200
- Circle Ø180 or mounting set Ø180
