

# ROOF DRAINAGE SYSTEM FOR VACUUM AND GRAVITY

**BLÜCHER®**

## BLÜCHER® Drain Roof and BLÜCHER® EuroPipe

BLÜCHER offers a high-quality stainless steel roof drainage system equally suitable for vacuum and gravity drainage.

The BLÜCHER® Roof Drainage System comprises stainless steel roof drains combined with the BLÜCHER® EuroPipe stainless steel push-fit pipework system. A complete system offering the best in performance and whole-life costing.

The BLÜCHER® Roof Drainage System is easily installed and ensures safe performance for decades with hardly any maintenance required.

Request a flow calculation for your roof drainage project from BLÜCHER through [www.blucher.com](http://www.blucher.com) - or contact BLÜCHER for more information.
